the following fundamental characteristics: Frailness, lack of fat, slenderness of muscle, lack of vigor in body development. The muscular insufficiencies of later life in frail women are common in frail children. The lessened ability of such a woman to fulfil the duties imposed on her, the limitations placed on her by her lack of vigor and the unhappiness which such women in a state of fatigue endure are serious matters with her. More might be done in the way of prevention. The frail child should be more clearly recognized and its tendencies more intelligently fought. There is a story about Colonel Roosevelt which illustrates well the snowball-rolling power of gossip.

Mr. Roosevelt, some years ago helped two boys to launch a boat at Oyster Bay. The episode passed from mouth to mouth, then from newspaper to newspaper, growing enormously, till at last it reached its climax in a Japanese journal.

This Japanese journal declared that Mr. Roosevelt had swum three miles out to a capsized sailboat and then had swum three miles back again through a raging sea with four boys on his back.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breething-a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. \$7,000,000 IN CONTRACTS

Miles of Its Line and Work is to Begin at Once

At a meeting held in Louisville Monday by the executive officials of the Louisville and Nashville Railroad bids were let for doubletracking the line from a point above Nashville to a point above Birmingham. The bids ht Monday call for an outlay of \$7,000,000. Two hundred bids were entered for this work.

The letting of these contracts means the beginning of the expenditure of \$15,000,000 in improvement. The road will double-track its line eventually below Birmingham to the gulf coast in preparation for the opening of the Panama Canal in 1913. The double-track. ing will be accomplished by means of an ex tension below Birmingham to Selms, Ala., to connect with the Selma-Flomaton branch. which rups from Flomaton, above Mobile, to Selma. The work is to be completed in two

The contracts awarded Monday include ractically all of the heavy construction and will cover all of the 100 miles of the 283 miles of double-tracking which is in contemplation. Contracts for the construction of lighter work, including tracks over compara tively level surfaces, will likely be let in Louisville before the end of the present week.

Milliners Decide That Spring Headgear Will Be Smaller Than Usual

At Chicago the National Association of Reail Milliners in convention decided the proper thing in hats this spring should be:

Small or medium in size. A riot of colors, with plenty of plain red.

Novelties in Turkish designs. Anything rather than large hats for fashion-

In the way of novelties, an umbrella hat, a son'wester," a score of creations evolved rom the Turkish towel-red stripes, tassels and all-and wound turban effects are set forth in the display of hats.

nal Which Every Woman Should Heed.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Read about Mrs. Wood-

Morton's Gap, Kentucky. - "I suffered two years with female disorders, my health was very bad and I had a continual

backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had sore-

ness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."-Mrs. OLLIE WOODALL, Mor-

hish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E.Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.
